THE COMPANY

An export house, documented

JinNing ships dried ginger and turmeric from Wenshan in Yunnan and fresh lemon from Anyue in Sichuan. The drying, milling and packing capacity sits with the group; the documents are issued in our own name.

Registered in Anyue, Sichuan, under USCC 91512021MAK9CH513X, and with Neijiang Customs as consignor and consignee since April 2026. We export in our own name: the invoice, the health certificate and the bill of lading all carry the same entity, and the batch certificate of analysis carries the lot number printed on the bag.

The ginger line is carried by our subsidiary Wenshan Siji and the partner plant Baijia Food: washing, hand sorting, hot-air drying, milling and packing under one roof, with a laboratory that releases the lot before it is packed.

The lemon line runs out of Anyue, the county that grows most of China's lemon, on registered orchards and a registered packing house.

CERTIFICATION, AS HELD

HACCP

115HACCP1700121 · Wenshan Siji, subsidiary

Solid condiments incl. ginger and turmeric powder; dried vegetables

KGC Kosher

BFW310127 · Baijia Food, partner plant

Ginger slices and powder; valid to 31 Jan 2027

Halal

Held by the group

Scope confirmed per product on request

Organic

EOS / NOP / JAS · subsidiary and partner plant

Organic slices, powders and turmeric; COI per shipment

DO YOU NEED THE FILE, OR THE GOODS?

Every SKU carries a technical data sheet. Every lot is released against a certificate of analysis. Every shipment leaves with a commercial invoice, packing list, bill of lading, certificate of origin, health certificate, phytosanitary certificate, fumigation certificate where required, and the batch COA.

The group plant at Wenshan, Yunnan: drying, milling, packing and the laboratory under one roof.

PRODUCT MATRIX

Nine SKUs, one specification each

Export bulk only. Retail and OEM finished products are quoted separately and are not part of this catalogue. Full specifications are in the TDS of each code.

Code	Product	Form	Key specification	Packing
EX-JK-00	Fresh Yunnan small yellow ginger	Whole rhizome	Moisture 78–85 %; 40–250 g per hand	10 / 20 kg carton or mesh bag
EX-JK-01	Air-dried ginger slices	Slices 2–4 mm	Moisture ≤ 19 %; volatile oil ≥ 1.6 mL/100 g	25 kg PP woven + PE liner
EX-JK-04	Organic dried ginger slices	Slices 1–3 mm	Moisture ≤ 11 %; pesticides not detected	20 kg carton, organic store
EX-JK-03	Ginger powder	60 / 120 mesh	Moisture ≤ 10 %; volatile oil ≥ 1.6 mL/100 g	25 kg kraft bag or carton
EX-JK-05	Organic ginger powder	60 / 120 mesh	Moisture ≤ 10 %; pesticides not detected	25 kg carton, organic store
EX-JK-06	Ginger granules and cut ginger	3–5 / 5–8 mm	Moisture ≤ 12 %; fines ≤ 5 %	25 kg PP woven + PE liner
EX-JH-01	Turmeric whole	Peeled fingers	Curcuminoids ≥ 1 / 3 / 4 %; moisture ≤ 13 %	25 kg PP woven + PE liner
EX-JH-02	Turmeric powder	120 mesh	Curcuminoids ≥ 1 / 3 %; moisture ≤ 10 %	25 kg kraft bag or carton
EX-JH-03	Organic turmeric powder	120 mesh	Curcuminoids ≥ 1 / 3 %; pesticides not detected	25 kg carton, organic store

HS headings 0910.11 ginger, neither crushed nor ground · 0910.12 ginger, crushed or ground · 0910.30 turmeric

Key specification is an extract; the TDS of each code carries the complete parameter set, the test method and the packaging options.

LOADING

FOB Guangzhou Nansha is the main load port; Shenzhen, Shanghai and Qingdao on request. Incoterms 2020: FOB, CIF, CFR. Delivery 7–15 days after deposit, 3–5 days from stock.

Mode	Product	Load	Note
20′ FCL	Dried ginger, turmeric	18–20 MT	25 kg bags; 720–800 bags
40′ HQ	Dried ginger, turmeric	23–25 MT	Palletised loads are lower
40′ RH reefer	Fresh ginger	24–26 MT	12–13 °C, cold chain unbroken
40′ RH reefer	Fresh lemon	To order	10–13 °C, vents set per destination

DOCUMENTS WITH EVERY SHIPMENT

Commercial invoice · Packing list · Bill of lading · Certificate of origin · Health certificate · Phytosanitary certificate · Fumigation certificate where required · Batch COA · Product TDS.

THE DETAIL

What each code ships against

Packing is fixed per SKU. Shelf life assumes the stated storage; samples of 200–500 g are free of charge, freight collect.

EX-JK-00

Fresh Yunnan small yellow ginger

Moisture 78–85 %
Unit 40–250 g per hand
Packing 10 / 20 kg carton or mesh bag
Shelf life 2–3 months at 12–15 °C

EX-JK-01

Air-dried ginger slices

Moisture ≤ 19 % (12–15 typical)
Volatile oil ≥ 1.6 mL/100 g
Packing 25 kg PP woven + PE liner
Shelf life 24 months

EX-JK-04

Organic dried ginger slices

Moisture ≤ 11 %
Pesticides not detected
Packing 20 kg carton, organic store
Shelf life 24 months

EX-JK-03

Ginger powder

Moisture ≤ 10 %
Granulometry 90 % through 60 / 120 mesh
Packing 25 kg kraft bag or carton
Shelf life 24 months

EX-JK-05

Organic ginger powder

Moisture ≤ 10 %
Pesticides not detected
Packing 25 kg carton, organic store
Shelf life 24 months

EX-JK-06

Ginger granules and cut ginger

Moisture ≤ 12 %
Granule 3–5 / 5–8 mm; fines ≤ 5 %
Packing 25 kg PP woven + PE liner
Shelf life 24 months

EX-JH-01

Turmeric whole

Moisture ≤ 13 %
Curcuminoids ≥ 1 / 3 / 4 %
Packing 25 kg PP woven + PE liner
Shelf life 24–36 months

EX-JH-02

Turmeric powder

Moisture ≤ 10 %
Curcuminoids ≥ 1 / 3 %; 120 mesh
Packing 25 kg kraft bag or carton
Shelf life 24 months

EX-JH-03

Organic turmeric powder

Moisture ≤ 10 %
Pesticides not detected
Packing 25 kg carton, organic store
Shelf life 24 months

Hand grading, Wenshan: slices are checked for colour, thickness and foreign matter before the bag is closed.

Applications Seasoning blends and marinades · curry, sauces and soups · pickling, braising and stewing · ginger tea and extraction · bakery and confectionery · dietary supplements and oleoresin extraction.

FRESH LEMON

10,000 tonnes a year from Anyue

Pre-cooled, graded and packed to order, then moved at 10–13 °C. Lemon is sold on market access and proved shipment by shipment.

The cold chain starts in the county, not at the port. Fruit is picked at colour break, brought down to 10–13 °C before packing, graded to the buyer's count and packed in 15 kg standard, 18 kg composite or 6–10 kg retail cartons. The temperature log is issued with the shipping documents.

Before the fruit moves: the destination market must be open to Chinese citrus; orchards and the packing house must be registered for export; every consignment is inspected and issued a phytosanitary certificate.

Annual capacity
10,000 tonnes of fresh fruit

Storage and transit
10–13 °C; below 10 °C chilling injury, above 15 °C faster ageing

Packing
15 kg standard / 18 kg composite / 6–10 kg retail carton

Grading
To the buyer's count and colour standard

Markets
Russia · Middle East · South-East Asia

10,000 t
Fresh fruit a year, scheduled by season

10–13 °C
Storage and transit, with a temperature log

3 markets
Russia · Middle East · South-East Asia

THREE GATES BEFORE THE FRUIT MOVES

Destination access
The market must be open to Chinese citrus, and the fruit must meet its residue and quarantine rules.

Registration
Orchards and the packing house are registered for export; the registration number goes on the documents.

Per-shipment inspection
Every consignment is inspected and issued a phytosanitary certificate before it is loaded.

Cold store, Wenshan plant

Loading bay, Wenshan plant

START WITH A SAMPLE.

Send the specification.

A product code, a volume, a packing and a destination port are enough. We reply with the current specification, the packing options, the price and the lead time — and a sample of 200–500 g, free of charge, freight collect, with the COA and the TDS in the box.
